

Contact Card Component

1. ContactCard.js Component

jsx

```
import React from 'react';
import './ContactCard.css'; // Optional: for external styles

const ContactCard = ({ name, email, phone, address }) => {
  return (
    <div className="contact-card" style={styles.card}>
      <div style={styles.header}>
        <h2 style={styles.name}>{name}</h2>
      </div>

      <div style={styles.content}>
        <div style={styles.infoRow}>
          <span style={styles.icon}> </span>
          <span style={styles.label}>Email:</span>
          <a href={`mailto:${email}`} style={styles.link}>
            {email}
          </a>
        </div>

        <div style={styles.infoRow}>
          <span style={styles.icon}> </span>
          <span style={styles.label}>Phone:</span>
          <a href={`tel:${phone}`} style={styles.link}>
            {phone}
          </a>
        </div>

        <div style={styles.infoRow}>
          <span style={styles.icon}> </span>
          <span style={styles.label}>Address:</span>
          <span style={styles.text}>{address}</span>
        </div>
      </div>
    </div>
  );
};

// Inline styles object
const styles = {
  card: {
    backgroundColor: '#ffffff',
    borderRadius: '10px',
    padding: '20px',
    margin: '15px',
    boxShadow: '0 4px 8px rgba(0,0,0,0.1)',
    transition: 'transform 0.3s ease, box-shadow 0.3s ease',
    width: '350px',
    border: '1px solid #e0e0e0',
    fontFamily: 'Arial, sans-serif',
    ':hover': {
      transform: 'translateY(-5px)',
      boxShadow: '0 6px 12px rgba(0,0,0,0.15)'
    }
  },
  header: {
    borderBottom: '2px solid #007bff',
    marginBottom: '15px',
    paddingBottom: '10px'
  },
  name: {
    margin: '0',
```

```

        color: '#333',
        fontSize: '24px',
        fontWeight: '600'
    },
    content: {
        display: 'flex',
        flexDirection: 'column',
        gap: '12px'
    },
    infoRow: {
        display: 'flex',
        alignItems: 'center',
        gap: '8px',
        flexWrap: 'wrap'
    },
    icon: {
        fontSize: '20px',
        minWidth: '30px'
    },
    label: {
        fontWeight: 'bold',
        color: '#555',
        minWidth: '70px',
        fontSize: '14px'
    },
    text: {
        color: '#666',
        fontSize: '14px',
        flex: '1'
    },
    link: {
        color: '#007bff',
        textDecoration: 'none',
        fontSize: '14px',
        flex: '1',
        ':hover': {
            textDecoration: 'underline'
        }
    }
}
};

export default ContactCard;

```

2. App.js - Main Application Component

jsx

```

import React from 'react';
import ContactCard from './ContactCard';
import './App.css';

function App() {
    // Sample contacts data
    const contacts = [
        {
            name: "Alice Johnson",
            email: "alice.johnson@example.com",
            phone: "555-1234",
            address: "123 Maple Street, Springfield"
        },
        {
            name: "Bob Smith",
            email: "bob.smith@example.com",
            phone: "555-5678",
            address: "456 Oak Avenue, Metropolis"
        },
        {
            name: "Charlie Brown",
            email: "charlie.brown@example.com",
            phone: "555-8765",

```

```

        address: "789 Pine Road, Gotham"
    },
    {
        name: "Diana Prince",
        email: "diana.prince@example.com",
        phone: "555-4321",
        address: "321 Amazon Way, Paradise Island"
    }
];

return (
    <div style={styles.appContainer}>
        <h1 style={styles.mainTitle}>    Contact Cards</h1>
        <p style={styles.subtitle}>My Professional Contacts</p>

        <div style={styles.cardsContainer}>
            {contacts.map((contact, index) => (
                <ContactCard
                    key={index}
                    name={contact.name}
                    email={contact.email}
                    phone={contact.phone}
                    address={contact.address}
                />
            ))}
        </div>

        <footer style={styles.footer}>
            <p>Total Contacts: {contacts.length}</p>
        </footer>
    </div>
);
}

// Styles for App component
const styles = {
    appContainer: {
        minHeight: '100vh',
        backgroundColor: '#f5f5f5',
        padding: '30px 20px',
        fontFamily: 'Arial, sans-serif'
    },
    mainTitle: {
        textAlign: 'center',
        color: '#333',
        fontSize: '36px',
        margin: '0 0 10px 0',
        fontWeight: 'bold'
    },
    subtitle: {
        textAlign: 'center',
        color: '#666',
        fontSize: '18px',
        margin: '0 0 30px 0'
    },
    cardsContainer: {
        display: 'flex',
        flexWrap: 'wrap',
        justifyContent: 'center',
        gap: '20px',
        maxWidth: '1400px',
        margin: '0 auto'
    },
    footer: {
        textAlign: 'center',
        marginTop: '40px',
        padding: '20px',
        color: '#666',
        borderTop: '1px solid #ddd'
    }
};

```

```
export default App;
```

3. index.js - Entry Point

jsx

```
import React from 'react';
import ReactDOM from 'react-dom/client';
import './index.css';
import App from './App';

const root = ReactDOM.createRoot(document.getElementById('root'));
root.render(
  <React.StrictMode>
    <App />
  </React.StrictMode>
);
```

4. index.css - Global Styles

CSS

```
* {
  margin: 0;
  padding: 0;
  box-sizing: border-box;
}

body {
  font-family: -apple-system, BlinkMacSystemFont, 'Segoe UI', 'Roboto', 'Oxygen',
    'Ubuntu', 'Cantarell', 'Fira Sans', 'Droid Sans', 'Helvetica Neue',
    sans-serif;
  -webkit-font-smoothing: antialiased;
  -moz-osx-font-smoothing: grayscale;
}

code {
  font-family: source-code-pro, Menlo, Monaco, Consolas, 'Courier New',
    monospace;
}
```

5. Optional: ContactCard.css for External Styles

CSS

```
.contact-card {
  background-color: #ffffff;
  border-radius: 10px;
  padding: 20px;
  margin: 15px;
  box-shadow: 0 4px 8px rgba(0,0,0,0.1);
  transition: transform 0.3s ease, box-shadow 0.3s ease;
  width: 350px;
  border: 1px solid #e0e0e0;
  font-family: Arial, sans-serif;
}

.contact-card:hover {
  transform: translateY(-5px);
  box-shadow: 0 6px 12px rgba(0,0,0,0.15);
}

.contact-header {
  border-bottom: 2px solid #007bff;
  margin-bottom: 15px;
  padding-bottom: 10px;
}
```

```
.contact-name {
  margin: 0;
  color: #333;
  font-size: 24px;
  font-weight: 600;
}

.contact-content {
  display: flex;
  flex-direction: column;
  gap: 12px;
}

.info-row {
  display: flex;
  align-items: center;
  gap: 8px;
  flex-wrap: wrap;
}

.icon {
  font-size: 20px;
  min-width: 30px;
}

.label {
  font-weight: bold;
  color: #555;
  min-width: 70px;
  font-size: 14px;
}

.text {
  color: #666;
  font-size: 14px;
  flex: 1;
}

.link {
  color: #007bff;
  text-decoration: none;
  font-size: 14px;
  flex: 1;
}

.link:hover {
  text-decoration: underline;
}
```

Project Structure

text

```

Expected Output

When you run this application, you'll see:

text

Contact Cards
My Professional Contacts

Alice Johnson

Email: alice.johnson@example.com

Phone: 555-1234

Address: 123 Maple Street, ...

Bob Smith

Email: bob.smith@example.com

Phone: 555-5678

Address: 456 Oak Avenue, ...

Charlie Brown

Email: charlie.brown@example.com

Phone: 555-8765

Address: 789 Pine Road, ...

Total Contacts: 4

Key Features Implemented

✔ **ContactCard Component:**

- Accepts name, email, phone, address as props
- Uses JSX for structure
- Includes styled card layout
- Email and phone numbers are clickable links

✔ **Multiple Components:**

- Renders 4 contact cards
- Maps through contacts array
- Each card has unique data

✔ **Styling:**

- Professional card design
- Hover effects
- Responsive layout
- Clean typography

✔ **Functionality:**

- Email links open default mail client

- Phone links work on mobile devices
- Consistent spacing and alignment

To Run the Application

1. Create a new React app:

```
bash
```

```
npx create-react-app contact-card-app  
cd contact-card-app
```

2. Replace the default files with the code above

3. Start the application:

```
bash
```

```
npm start
```

4. Open <http://localhost:3000> to view it

This implementation provides a clean, professional contact card display that meets all the requirements while adding useful features like clickable contact links and responsive design.
